GitHub | Portfolio

👤 Profile

Motivated and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about creating responsive, user-friendly, and visually appealing web interfaces. Eager to learn modern web technologies and apply problem-solving skills to real-world projects.

⚙️ Tech Stack

HTML5 | CSS3 | JavaScript | React.js | Bootstrap | GitHub | VS Code | REST APIs | Responsive Design

📁 Projects

Personal Portfolio Website

Description: Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects, achievements, and resume. Implemented smooth animations, optimized performance, and ensured mobile compatibility for a seamless browsing experience.

Impact: Enhanced understanding of UI/UX principles, layout structure, and frontend performance optimization. Strengthened creative design and responsive web development skills.

Weather App

Description: Built a live weather web application using the OpenWeatherMap API with real-time city-based search. Implemented dynamic backgrounds, API data fetching using JavaScript async/await, and responsive layout for all devices.

Impact: Improved skills in API integration, asynchronous programming, and DOM manipulation. Strengthened debugging and data-driven UI design abilities.

Chat Application Using Java

Description: Developed a real-time multi-user chat system using Java, socket programming, and multithreading. Built a Swing-based GUI for smooth message exchange and user interaction. Hosted client-server architecture for simultaneous connections.

Impact: Gained hands-on experience in networking, concurrency, and real-time communication. Improved logical structuring, server-side handling, and parallel thread management skills.

🎓 Education

B.E. (Computer Engineering), Savitribai Phule Pune University | 2022 – 2026 (Expected)

📜 Certifications

Responsive Web Design – freeCodeCamp
